Fisheries Review

Jeff Humphrey, Editor

Office of Information Transfer
Editorial Section
U.S. Fish and Wildlife Service
1025 Pennock Place
Fort Collins, Colorado 80524

Fisheries Review is intended to furnish fishery biologists with abstracts of current literature in sport, fishery research, and management.

One volume, consisting of four numbers, is issued each year. Each number contains separate Author, Geographic, Taxonomic, and Subject indexes, and a list of publications screened. Authors who publish in journals not screened for *Fisheries Review*, and who would like their publications included, should submit abstracts to the Editor.

The U.S. Fish and Wildlife Service assumes no responsibility for the accuracy of material from outside sources, and can only supply copies of articles written and published by the U.S. Fish and Wildlife Service.

Fisheries Review

CONTENTS

AQUATIC PLANTS AND THEIR CONTROL 1

CULTURE AND PROPAGATION

- General Fish Culture 1
- Trout and Salmon Culture 1
- Warmwater Culture 4
- Mariculture 6
- Feeds, Feeding, and Nutrition 6
- Transporting Fish 7
- Aquariums 8
- Miscellaneous Culture Techniques and Equipment 8

LIMNOLOGY AND OCEANOGRAPHY

- Physical 8
- Plankton 8

MORPHOLOGY, PHYSIOLOGY, GENETICS AND BEHAVIOR

- Morphology 8
- Physiology 15
- Genetics, Variation Studies, Hybridization 43
- Behavior 49

NATURAL HISTORY

- Life Histories - General Works 54
- Population Studies - Production, Standing Crop, Recruitment. 57
- Spawning Habits and Movements, Sex Ratios, Fecundity, etc... 58
- Movements, Seasonal and Depth Distribution, etc 60
- Foods and Feeding 61
- Age and Growth 64
- Geographical Distribution, Fish Surveys, etc 67
- Abundance, Factors of; Survival and Mortality 69
- Identification, Keys, Classification 70

PARASITES AND DISEASES

- General 72
- Bacterial 73
- Fungal 76
- Protozoan 76
- Viral 77
- Other 78

POLLUTION AND TOXICOLOGY

Pollution..... 83
Fish Kills..... 86
Toxicology; Bioassays..... 86

RESEARCH AND MANAGEMENT

General..... 98
Administration and Planning..... 99
Reports of Fishery Stations, States, etc..... 99
Habitat Alterations..... 100
Harvest, Creel Census, etc..... 101
Marking and Tagging..... 102
Stocking and Introductions..... 102
Fishing Gear and Techniques..... 103
Fishways, Fish Passage Through Dams, etc..... 104
Mathematical, Statistical Methods and Modeling..... 105
Lake Management and Research..... 113
River and Stream Management and Research..... 116
Large Impoundment Management and Research..... 123
Estuary Management and Research..... 123
Marine Management and Research..... 124
Utilization of Fishery Products..... 127
Miscellaneous Techniques and Equipment..... 128
Reviews, Bibliographies, etc..... 131
Miscellaneous..... 132

AUTHOR INDEX (Salmon)..... 133
GEOGRAPHIC INDEX (Yellow)..... 165
SYSTEMATIC INDEX (Blue)..... 173

AVAILABILITY OF REPRINTS AND PUBLICATIONS

Fisheries Review does not distribute any of the papers cited herein, nor can the editor of *Fisheries Review* obtain copies of these papers for anyone. A reprint of an article published in a journal may be available from the author, from the organization with which the author is affiliated, or from the publisher of the journal in which the article appeared. When an author's address is known, it is shown in square brackets following the citation. Addresses of most wildlife organizations can be obtained from the *Conservation Directory*, an annual publication available from the National Wildlife Federation, 1412 16th St., N.W., Washington, D.C. 20036. This directory lists more than 900 agencies and organizations concerned with natural resources use.

Camera-ready copy for this issue of *Fisheries Review* has been generated by computer programs developed by the Data Base Section, U.S. Fish and Wildlife Service, Office of Information Transfer, 1025 Pennock Place, Fort Collins, CO 80524.

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.
